Md. Mehedi Hasan Forhad

Undergraduate Civil Engineering at this Sylhet Engineering College|
Auto-cad | Revit | ETABS | LUMION | Arc-Gis
Sylhet Sadar Upazila, Sylhet, Bangladesh

Summary

Trying to make “Hello World” the new “Building Structure”

I’m a passionate and curious second-year Civil Engineering undergraduate at Sylhet Engineering College. With a growing interest in structural design and its transformative impact on human settlements, I’m eager to explore how technology and engineering can work hand-in-hand to shape a better built environment.

My toolkit spans both traditional engineering tools and modern digital solutions:

Structural Design & Analysis: AutoCAD, Autodesk Revit, ETABS, LUMION, ArcGIS

Software & Tech Skills: JavaScript, MERN Stack, Microsoft Office

Research: Currently involved in structural design-related academic projects

What I might lack in experience, I make up for with relentless curiosity and a willingness to learn. I enjoy solving real-world challenges and envisioning innovative solutions that combine both civil engineering and technology.

Outside the classroom, you’ll likely find me:

Sipping tea while tending to my garden

Lost in a good book or relaxing with a movie

Exploring how code meets concrete in the digital world

Let's connect if you're into civil engineering, tech in infrastructure, or collaborative research!

Education

Sylhet Engineering College

B. Sc (Engr.), Civil Engineering · (November 2022 - October 2026)

paruara abdul matin khasru college

Higher secondary certificate, science · (May 2019 - December 2021)

Purnamoti Mansur Ahmed High School

Secondary School Certificate, Science · (December 2016 - February 2019)

Purnamoti Mansur Ahmed High School

Junior School Certificate, General Studies · (December 2013 - November 2016)
